

Concerning Low Power FM:

I listen to K-LOVE on the regular FM band. It is the ONLY family friendly programming I have found on FM radio. It is the only radio station I will allow my young children to listen to. I listen to it exclusively. They also provide a free community calander of events related to it's programming free of charge on a first come first server basis. I am a financial supporter of K-Love.

K-Love is supported by listeners in the communities they broadcast in, and therefore must be serving the community or they would not exist. I believe K-LOVE is already is of great value to the entire community, and it would be a tragedy if K-LOVE lost any of it's broadcast area due to changes in the Low Power FM regulations.
